

Hello Catawba Citizens

My name is Ronald Floyd Harris a proud Catawba tribal member. I am the grandson of the late Floyd Raymond Harris and Nola Harris-Cambell.

I am excited for the opportunity to serve you and our nation on the EC committee. First i would like to tell you about my experience in the workplace. As for I was a market manager for 35 years at grocery stores. Currently I work at the two kings casino as a main banker in the cage department. I graduated from Rock Hill High School, served in the navy, and have some college experience in business and accounting. I am very excited to help our nation push forward. Wherein I have many ideas that can make a difference in our grandchildren's lives, and other generations to come. Areas I would focus on if elected, are education, housing, health care, and business opportunities. Therein also we need a policy for tribe members that drive from reservation to reservation meaning Casino land for work.

Ladies and gentlemen, I hope in my heart that if elected can help our people come closer together. At most to bring a bright future for our grandchildren and generations to come.

Thank you, God Bless
